## **Effective Communication with School Officials**

Parents who have questions or concerns about any aspect of their child's education are encouraged to contact the schools directly to have their issues resolved. As school officials, we welcome an open line of communication and ask that you contact us directly rather than air grievances in public, post comments on social media, or discuss concerns among small groups in the community.

Many questions are easily answered by communicating directly with the educator in charge of your child's class, club, sport, or program. Each situation should be first addressed at the initial level of impact, e.g. classroom teacher, coach, or advisor, with appeals moving on to the next level as necessary. The following shall serve as a guideline for whom to call and in what order. Please allow a reasonable amount of time for a return correspondence, i.e. 24 hours.
