

Millstone Township School District

STRATEGIC PLANNING PRESENTATION

Vision Statement

We envision a unique, inclusive learning community at the forefront of education.

Parents, staff and students will model and promote individuality, integrity, respect, and civic and social responsibility.

Through an engaging, innovative curriculum, we will challenge students to become independent, self-directed learners who are adaptive problem solvers inspired to impact and thrive in an evolving society.

In realizing this vision, we will establish our community as an exemplary leader in education.

**This is a “MUST ATTEND” meeting
